

# MULTIFASTER SERIES

► Quick-release coupling block for automatic connection of several hydraulic electrical and pneumatic lines.

The **MULTIFASTER** is a **PATENTED** multiple connection system which allows simultaneous automatic connection of several hydraulic, electrical and pneumatic lines. The connection is simply achieved without any auxiliary tools even at maximum working pressure.

Flat-face couplings used in the **MULTIFASTER** eliminate oil spillage during disconnection and air inclusion during connection.

The fixed part of the **MULTIFASTER** is completely flat in order to facilitate cleaning.

The **MULTIFASTER** can also be equipped with electrical and pneumatic connections.

## ► THE NEW REVOLUTIONARY WAY OF THE QUICK-RELEASE COUPLING

- **PATENTED** system for simultaneous connection of several hydraulic, electrical and pneumatic lines.
- Eliminates the risk of lines inversion.
- Special seals made in Polyurethane against extrusion and wear.
- Safety locking device avoids accidental disconnection.
- Protective dust cap.
- Surface on fixed block completely flat: easy to be cleaned.
- Connectable and disconnectable under pressure.
- **3P MULTIFASTER series** for an effortless connection under working pressure.
- Ecological: no spillage.
- Wide range of threads.
- Easy to be mounted also on pre-existent systems.

**FASTER® exclusive technology**
